1650 Mission Street, Suite 400
San Francisco, CA 94103

Dear President Miguel and Members of the Planning Commission

I am strong supporter of the California Pacific Medical Center project. My café is in the neighborhood of the Van Ness and Geary project and I am looking forward to seeing this hospital built. It will provide an emergency room in a very dense part of San Francisco. And it will be a seismically safe facility in the case of an earthquake. We need this facility, and urge you to approve this project.

Sincerely,
