President Ron Miguel
San Francisco Planning Commission
1650 Mission Street, Suite 400
San Francisco, CA 94103

Dear President Miguel and Members of the Planning Commission,

I am writing today to ask for you to approve California Pacific Medical Center's hospital rebuild projects. I am a local business at 1307 Sutter Street, around the corner from the proposed hospital at Van Ness and Geary. As a neighborhood restaurant, I am a little concerned about the construction of the hospital. However, I know that once it is built, it will be a great asset to our community.

The hospital will be an earthquake-safe facility. This is important because we need hospitals in the case of a major earthquake. This is a good location for the hospital because it is close to many low-income communities, and it is also close to very diverse communities. CPMC has also committed to rebuild St. Luke's Hospital in another diverse community on Valencia and Cesar Chavez.

I support CPMC's rebuild projects. Please approve these hospitals so that our neighborhoods will see the benefits in the near future.

Respectfully,
